

Goals for KMMC in 2021:

- Create opportunities for diverse stakeholder interaction
- Identify priority topics/key questions and recommend meaningful measures to address them
- Engage state partners around recommendations and meaningful measures identified
- Maintain a focus on measures related to social determinants of health (SDOH)

Discussion Questions:

1. Are there any changes needed to the goals of the KMMC for 2021?
2. Are there activities missing from this list that the KMMC is interested and willing to invest in? (e.g., educational opportunities about KanCare data sources; SDOH panel discussion)
3. How much effort should be spent on previous priorities vs. exploring new priority topics? Validating existing KanCare measures vs. developing new measures (which may be more resource intensive)?
4. Are there additional opportunities to meaningfully engage and support state partners and other stakeholders?
5. Are there key partners who were missing from the work in 2020 that we should engage (or re-engage) in 2021?
6. In what ways can the KMMC align its work with the Bethell Committee?
