

INTRODUCTION (*similar to Phase 1 Guidance*)

Purpose/Core Principles

Scope/Planning Assumptions

Authority and Legal Considerations

Equity and Ethical Considerations

CONCEPT OF OPERATIONS (*New for Phase 2*)

Staffing Considerations

Indicators/Triggers Conventional – Contingency – Crisis

Slow-onset scenario (e.g., COVID-19)

Key Questions

Surveillance data

Community and communications infrastructure

Staff and Worker functional capacity

Space/infrastructure

Equipment and supplies

Medication

Fast-onset scenario (e.g., tornado; mass casualty incident)

Key Questions

Surveillance data

Community and communications infrastructure

Staff and Worker functional capacity

Space/infrastructure

Equipment and supplies

TREATMENT/TRANSPORT/DISCHARGE

Admission Criterion (similar to Triage Process; Resource Load Balancing?)

Health Care Passport

Advance Care Planning

COMMUNICATION

Staff and service entities

Residents

Family members

Health Care Coalition (HCC)

Resource allocation cards

DAILY CARE AND LIFE ENRICHMENT *(additional section for Phase 2?)*

STAFFING RESOURCES *(additional section for Phase 2?)*

COVID-19 GUIDANCE *(additional section for Phase 2?)*

Signs and Symptoms

Risk Factors

Identify Plans and Resources

Create a Testing Plan and Identify Testing Resources

Create a Plan for Managing COVID-19 in Your Facility

Assess cleaning and hand hygiene

Maintain inventory of personal protective equipment (PPE)

Visitor restrictions

Screen staff

Screen residents

Educate staff

Educate residents

Vaccinations

Create a Plan to Prevent the Spread within Your Facility

Use of testing to inform response

Report positive test results

Response to newly identified cases

Contract tracing approach

Broad based approach

Manage residents with confirmed cases

Optimize PPE and access supply

Release from isolation and quarantine guidance

APPENDICES

Acronym Glossary *(similar to Phase 1 Guidance with new terms)*
