

Meeting Space Information

KHI provides a welcoming and comfortable space to do the hard work of understanding and addressing the many difficult health policy challenges we face in our state. Classes and other meetings in our building are expected to include evidence-based dialogue that respects differing opinions and points of view. The space offers sophisticated audiovisual equipment to engage people from locations across the state and nation, and an environment that promotes healthfulness.

Our focus on healthy meetings includes open space with wide, sunlit staircases, healthy food and beverage options, and opportunities to move or stretch during long meetings.
