

CHART PACK: Kansas Uninsured Rate Improves, but Remains Higher than U.S. Rate

Figure 1. Uninsured Rate for Kansas and the United States, 2009–2019 and 2021–2022

Note: Due to the COVID-19 pandemic's effect on federal survey data collection, the U.S. Census Bureau did not provide standard ACS 1-Year data for 2020. Data on Young Adults Age 19–25 were not available in 2010.
Source: Kansas Health Institute analysis of data from the U.S. Census Bureau American Community Survey 1-year Estimates, Table S2701, 2009–2019 and 2021–2022 for all ages and 2012–2019, 2021–2022 for young adults age 19–25. Data for Young Adults 2009 and 2011 were from "Health Insurance Coverage of Young Adults Aged 19 to 25: 2008, 2009, and 2011," U.S. Census Bureau, September 2012, <http://bit.ly/2CeDrRX>.

CHART PACK: Kansas Uninsured Rate Improves, but Remains Higher than U.S. Rate

Figure 2. Uninsured Rates for Kansas and the United States for Selected Race and Ethnicity Groups, 2009–2019 and 2021–2022

Note: Due to the COVID-19 pandemic's effect on federal survey data collection, the U.S. Census Bureau did not provide standard ACS 1-Year data for 2020.
Source: Kansas Health Institute analysis of data from the U.S. Census Bureau American Community Survey 1-year Estimates, Table S2701, 2009–2019 and 2021–2022.

CHART PACK: Kansas Uninsured Rate Improves, but Remains Higher than U.S. Rate

Figure 3. Uninsured Rates for Kansas and the United States for Persons with Income Less than 138 Percent Federal Poverty Level, 2011-2019 and 2021-2022

Note: Due to the COVID-19 pandemic's effect on federal survey data collection, the U.S. Census Bureau did not provide standard ACS 1-Year data for 2020. In 2022, 138% of the federal poverty level (FPL) was \$18,754 for an individual and \$38,295 for a family of four.

Source: Kansas Health Institute analysis of data from the U.S. Census Bureau American Community Survey 1-year Estimates, Table S2701, 2011-2019 and 2021-2022.

CHART PACK: Kansas Uninsured Rate Improves, but Remains Higher than U.S. Rate
