Medicaid:

What to Expect in 2025

Proposed policy changes at the federal level could significantly impact KanCare, Kansas' Medicaid program, in 2025 and beyond. On Thursday, Feb. 20, KHI held an event where participants explored current coverage criteria and eligibility, including income thresholds and access for key groups like older adults, individuals with disabilities, and low-income families. This guide includes key resources from the event, discussion questions for further reflection, and ways to stay connected as we continue to explore Medicaid policy changes.

Discussion Questions

- How might the proposed federal policy changes impact KanCare for key groups such as older adults, individuals with disabilities, and low-income families?
- What strategies could be implemented at the state level to maximize opportunities and mitigate potential challenges?
